DETAILED ACTION

Claims **1-28** are present for examination.

Claims **1-28** are allowable over prior arts of record.

REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:

The prior arts fail to teach or fairly suggest a flash memory having at least one persistent projection bit (PPB) and at least one dynamic protection bit (DPB) for preventing any modification to the memory sectors as recited in claim **1**. Particularly, the closest reference is Lee et al (**5,930,826**) and Chuang et al (**6,031,757**), although also suggests the use of protection bit stored in a non-volatile source, fails to suggest two distinct types or uses of protection bits as the applicant claimed: "dynamic" and "persistent" for two types of protection mode. Further, as seen in claim **20**, these prior arts also fail to suggest or disclose method of protecting said flash memory against alterations using these two types of protection bits. Thus, all the claims **1-28** are allowable over prior arts of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Art Unit: 2818

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Viet Q Nguyen whose telephone number is (703) 308-4897. The examiner can normally be reached on 7-6.

The fax phone numbers for the organization where this application or proceeding is assigned are (703) 308-7724 for regular communications and (703) 308-7724 for After Final communications.

Any inquiry of a general nature or relating to the status of this application or proceeding should be directed to the receptionist whose telephone number is (703) 308-0956.
